At Dusk Projects, we specialise in construction and project management that delivers clarity, control, and results. Based in the Bay of Plenty, New Zealand, we support clients through every stage of their build – from concept to completion. We are specialists in multi residential and light commercial construction, offering the expertise to build townhouses or complete complex commercial construction projects with precision and integrity. With more than 13 years of industry experience, our expertise lies in managing construction projects that are complex, high-value, and designed to generate strong returns. Whether you are embarking on your first subdivision, planning townhouse developments, or scaling up into multi residential construction, our team provides hands-on guidance and proven systems that keep projects on track. We are trusted townhouse developers who understand the challenges of building construction project management, and we work proactively to remove stress while ensuring seamless delivery. Our services extend to the commercial sector, where we are recognised as reliable commercial builders offering full commercial construction and renovation solutions. As a forward-thinking commercial building company, we bring transparency, structure, and agility to every project – ensuring timelines are met and quality is never compromised. With strong trade partnerships and refined delivery methods shaped on large-scale international builds, Dusk Projects brings global experience home to New Zealand. Choose Dusk Projects to experience tailored construction management solutions that transform ambitious ideas into exceptional results.
